

Academic Continuity Notice

Dear Students,

We are aware that the recent power outages and resulting loss of internet access have created significant challenges for our campus community. Please know that your academic success and well-being remain our top priorities during this disruption.

Faculty have been advised to be flexible, and **extensions will be granted for assignments, assessments, and other academic requirements** impacted by the outages. No student will be penalized for circumstances beyond their control.

To support connectivity, the College will be **establishing internet hotspot services in each residential hall** as quickly as possible. Additional details will be shared as these services become available.

If you are experiencing difficulty accessing Blackboard, completing coursework, or communicating with your instructors, we strongly encourage you to reach out for assistance. Support is available through multiple channels:

- **Student Success and Persistence - Mrs. Vivian Gullede, Director of Student Success**
- **Blackboard- Mr. Torres Bell- tbell2@rustcollege.edu**
- **Academic Affairs- (see accompanying table)**
- **Please do not hesitate to communicate your needs. We appreciate your patience and resilience as we work through these challenges together and restore full service.**

Thank you for your understanding and cooperation.

NAME	Email	Department/Division
BUSINESS
